ABOUT US

Loft Uganda is the design and development based in Uganda.
We are the intersection between art, technology and design.

We unlock strategic online opportunities for clients. We work to create dynamic and awesome mobile apps and that can engage your users to keep them returning over and over again.

We build your imaginations, so you do not have to stop imagining.
Our development process is inclusive with the client, with incremental updates, we keep you in the loop and produce a near perfect product.

We are ranked among the top 2 website development agencies in Uganda and number 1 mobile app development agency in Uganda by Sortlist, <https://www.sortlist.com/web-design/uganda-ug>

WHAT WE DO

Website development

Websites are the most powerful tool of publicity, professionalism and organisation. They are indispensable when it comes to delivering information and public relations. We believe a website should be as good as the brand it represents or even more, that's why our team creates vivid, greatly interactive and tailor made websites to suite the ever changing needs of the tech world.

Mobile app development

Mobile apps are becoming more critical for many businesses with more than 3 billion people worldwide using smartphones, more than 1.5 billion using tablets as of 2019. Users, on average, spend 90% of their mobile time in apps and there are more than 700 million apps downloads from various app stores.

Online payments

It is difficult for an online businesses or organisations to operate without supporting online payments due to their widespread use. However online merchants must comply with stringent rules stipulated by the credit and debit card issuers, Loft Uganda will mediate and save you all the bureaucracy. In a week, you can start accepting international donations or have an online shop up and running.

WHAT WE DO

CRM systems development based on Salesforce, SAP Hybris Cloud

We create CRM systems on-premise and using the Cloud Technologies. We migrate data and integrate the system with enterprise applications.

MAINFRAME SUPPORT

Our SAP Partner Center of Expertise team in IBA Group consists of experienced consultants certified by SAP in SAP Business All-in-One, SAP Business Objects, and SAP HANA.

CUSTOM DEVELOPMENT

We believe in the diversity of our customer needs, we therefore undertake tailor devOps to meet the needs of the customer.

OUR VALUES

CUSTOMER SATISFACTION

We are here to meet your demands to the best of our ability and go an extra mile to beat your expectations.

INNOVATION

We aim at being out doing ourselves all the time, to do so we keep looking out for the best ideas.

TIMELINESS

“Show some mercy to your 'time', don't always waste it.”
— Amit Kalantri

TEAM WORK

If you can do it well alone, imagine how much better you could do it with others!

How we work

1
Customer engagement and probing
for expectations.

2
Visualisation and prototyping of the
problem and possible solutions

3
Design and development

4
Quality assurance

WHY US

US

Take your time and surpass the client's expectations, every company is special; treat their website/application as such.

Make it a priority to sort customer issues as quickly and effectively as possible.

THEM

Build as many websites as possible from the same template and minimise workload as you maximise profits.

CASE STUDY

Challenge

In March 2021, budo junior school just like any other institutions in the country closed because of COVID. However learning had to go on.

Deliverables

The school needed a way to have learning go beyond class rooms.

Solutions

We created a google classroom for the primary seven and added lessons for the rest of the classes on the school website.

REVIEW OF THE PROJECT

The execution was timely,
they gave us a solution hardly
8 hours after our first
meeting.

—Mr. Ernest Kavulu

We easily got acquainted with
the platform even when it
was our first time using it.

—Mr. Kitaka Geofrey

I was able to download the
work for my boy at office and
have them do it offline, very
convenient.

—Mrs. Ssali Sarah

SOME OF OUR CLIENTS

01

**Office of the
president**

Website
design,development and
maintenance.

02

Ministry of ICT
